

NASA Goddard Space Flight Center (GSFC)
8800 Greenbelt Road, Greenbelt, MD 20771

Friday Night Lessons & Dances during January--March 2026
will be held at the **Recreation Center (Bldg. 92)**. See Map below.

Lesson: 6:30 p.m. to 7:30 p.m. Dance: 7:30 p.m. to 9:30 p.m.

(1) If you enter through the old main gate at Goddard Road (*with a photo badge and prior to 7:00 pm*), proceed straight and make a right at Explorer Road (the first stop sign). Follow Explorer Road through a couple of stop signs to the intersection with the flashing traffic signal, then go straight through the light.

(2) If you enter through the new main gate at ICESat Road (*to get a paper badge or after 7:00 pm*), proceed to the intersection with the flashing traffic signal, then turn right at the light.

Make a right turn at the next stop sign onto Aqua Road. (There is a sign for the Rec Center here.)

Following Aqua Road, you will encounter three more stop signs. After the second stop sign, move into the left lane before you reach the third and last stop sign, avoiding the right-turn only lane. (There is a sign for the Rec Center here.)

Proceed through the final stop sign and the road will bend to the right a short distance. Turn right at the next intersection (there is *no sign* for the Rec Center here), and then take a left at the fork in the road.

At this point, you should see a sign on the fence that reads **GEWA Recreation Center**. Follow this road for a few tens of yards and it will take you to the Rec Center parking lot.

When departing Goddard, retrace your drive to the flashing traffic signal. Turn left, and exit through the new main gate on ICESat Road onto Greenbelt Road.
